*Response to participants comments*

AU SABLE      none

BACKUS      none

DENTON      Regarding the #5 plastic, each township has it's own recycling control/program and that is not an item we take at HHW; we are working on having a latex paint collection again.

GERRISH      We have tried the scouts and schools, happens to be a bad time both times a year for students; we are working on a latex paint collection again; not sure what was meant by maps; we do take fire extinguishers (along with your township fire dept.).

HIGGINS      All good comments.

LAKE      We are working on a latex paint collection again; working at keeping the two conservation/recycling websites up to date.

LYON      Good comment.

MARKEY      We are working on a latex paint collection again; we take as many tires as a household wishes to bring, just two are free; regarding the clipboards, the volunteers work as efficient as time allows.

NESTER      none

RICHFIELD      We have the HHW collection as often as money and volunteers allows at this time (twice a year); volunteers/committee members try to get signs out on the Sunday prior to collection, we rely on each township to promote with website, signs, banners, etc in their area; it is on the conservation district Facebook page; notices do go out to the senior centers, churches, organizations, etc., we hope that they would spread the word; we had a display tent on site, just never got time to put it up.

ROSCOMMON      Regarding directions, not sure what is meant—to event or on-site.

- The Recycling Committee will make every effort to address each and every one of these comments; remember, these are volunteers from your community helping you recycle your waste in the most practical, safe way possible during this event. We appreciate these volunteers and welcome you to join us—contact Barb at (989) 275-3163 or [barb.stauffer@macd.org](mailto:barb.stauffer@macd.org).
